## ABOUT ME

As a versatile Software Engineer with a comprehensive and diverse skill set, I bring a wealth of expertise to the table. One of my standout skills is my proficiency in software testing, encompassing both manual and automated testing methodologies. This allows me to ensure the quality, functionality, and reliability of software products. Leveraging tools like Postman API, I conduct thorough API testing and validation, and my proficiency extends to crafting and executing SQL queries for efficient database interaction.

Beyond my specialization in testing and quality assurance, I have cultivated a robust foundation in various programming languages and development platforms. My proficiency spans a wide array of languages such as C#, HTML, CSS, JavaScript, VB, SQL, Python, and C++, and I am adept at working with development environments including Visual Studio, CodeBlocks, and Visual Studio Code.

Furthermore, I excel in collaboration and project management, seamlessly navigating projects on platforms like GitHub. This proficiency ensures streamlined code management and facilitates effective team collaboration throughout the development process.

Throughout my academic and professional journey, I have consistently demonstrated a knack for creatively solving intricate problems. I thrive on tackling challenging projects and crafting innovative solutions through collaborative efforts. My unwavering passion for technology fuels my constant desire to learn and evolve as a developer. This drive propels me to actively seek opportunities that foster the growth of my skill set.

## EDUCATION

### ELECTRICAL AND ELECTROMECHANICAL ENGINEERING TECHNOLOGY

Queen Noor civil aviation technical college

2017/2019

### SOFTWARE ENGINEERING

2021/2023

Al Isra University
